

Tuesday March 31, 2026

Good morning, Township Supervisors and Clerks.

Below is the Road Commission's plan for storm debris cleanup:

Road Commission crews, with help from MDOT, have been and will continue to work on clearing debris in the County Road rights-of-way from the recent ice storm. After April 14th, MDOT crews will move to the State highways and only RCRC crews will be working on the County Roads. Currently both RCRC and MDOT crews are working extended hours, inclusive of some weekend work.

Storm debris outside of the right-of-way is the responsibility of property owners. Residents should not expect any debris they place on the roadside to be picked up by the Road Commission.

We are planning to share the above information on Facebook later today.

Thank you,

Roger Saxton, Manager - Roscommon County Road Commission
